About Us

Caregenics Healthcare was established on the basis of creating bespoke care planning & services.

We aim to achieve the best with our service users and create a bond that provides a long lasting relationship and impact on lives.

We go above and beyond to ensure that our service users feel the ongoing comforts and formalities of life that have not been seen for years. We have a team of specialist healthcare assistants who are experts in a variety of different medical conditions which enables them to understand service users and find ways to promote independence and a healthy lifestyle.

Our core ethos is to bring a breath of fresh air to our service users whilst being reliable, trustworthy, punctual and enthusiastic about our roles at Caregenics Healthcare. We currently provide care in all aspects including Adults aged 16 - 65+, Mental health, Dementia, Learning disabilities, Physical disabilities, Complex care, Challenging behaviours, Live-in care, Re-enablement, Respite, End of Life, Overnight care, Medication, Domestic duties & much more.

Our Care Services

Personal Care

Our professional and caring staff are able to provide a wide range of personal services allowing our clients to maintain their dignity and respect. Our services include:

Assisting clients with their personal hygiene - As a regulated activity, many aspects of personal care are required to be registered and are inspected and rated. We consider this service to consist of any aspect or any level of personal hygiene such as washing, bathing, continence care etc.

Assistance with dressing - this includes helping clients to get dressed and undressed and choosing appropriate clothing. We also give full support in dressing or just helping with socks or surgical stockings.

Assistive Care

Caregenics Healthcare provide a live-in care service tailored to the needs and wishes of each client provided by well-trained staff. Our carers also share the same passion for helping clients to live well and to enjoy life independently at home.

Complex Care

Complex care, continuing care or long-term care is the care required for someone with substantial healthcare needs. This could be due to a disability, a debilitating mental health condition or a chronic illness such as Huntington's Disease or Cerebral Palsy.

It is also referred to when someone undergoes a medical procedure and there are complications, such as brain injury, muscular dystrophy or injury to the spinal cord.

At Caregenics Healthcare we provide complex care support for people who need medium to long-term, continuing specialist or substantial care because of a disability or chronic illness, or following hospitalisation or long-term medical treatment.

Palliative Care

Caring for a dying person can be a challenging yet rewarding experience. Whether you or your loved one choose to stay at home or a hospice, our experienced care givers are on hand to support those with a terminal diagnosis or a life limiting illness.

Firstly, a respectful and sensitive assessment is undertaken which compassionately assesses every individuals needs.

Moreover, we not only offer physical care, our home care givers will support emotional and psychological needs which can arise in such a situation.

Dementia Care

Caregenics Healthcare can provide care dementia care by supporting you with either visiting or live-in carers. We are here to play as big a role as you need us to and our home care service is designed to fit around any existing support and to complement any current treatment you or your loved one may be receiving.

Why Choose Us?

Safe & Comfortable Home Care

Our home care service offers personal care with dignity and compassion. Our aim is to understand your loved one's personal needs and provide the support to help them retain their independence as much as possible. We will always be behind them should whenever they need us.

Always High Standards

We ensure all of our staff and care givers are trained to the highest standards with industry approved methods. We check to ensure they have all required certifications and accreditations.

We continually monitor all staff throughout their work to ensure our high standards of care are always met.

Quality Assurance

Our quality assurance ensures you or your loved one consistently receive the highest standards of care. Our internal systems continually monitor our services and flag up any areas where we can improve. We strive to ensure your needs are met with the highest quality care possible.
